## Self-Management Pathway

*What you think, say and do changes your pain on a cellular level. Make this moment count by incorporating tools and resources available to you.*

- Review Island Health's [Pain Program – Clinic Introduction Slideshow](#)

- Attend **Orientation**

Approximately 1 hour education session offered as a live virtual group session through Zoom for Health platform. You will learn the latest in pain science, common misconceptions and strategies to optimize your well-being.

- Attend a Self-Management course:

---

### **RJH Pain Program**

**Pain Foundation (led by trained healthcare professionals) – available upon completion of Orientation and 1:1 intake with rehab team**

An eight session (2 hours each) interactive self-management program. Participants will learn evidence based active strategies to calm their pain protective system. We take a whole-person (biopsychosocial and values based) approach and provide support as you develop your own combination of self-management strategies. Sessions are offered either via zoom or in-person.

---

### **Other Community Options:**

**Self-Management BC (led by trained peers living with persistent pain)**

A free chronic pain program to adults of all ages. This program is offered virtually, online, by telephone, or by mail for adults living in BC. To learn more, check out <https://www.selfmanagementbc.ca/chronicpainprogram> or call toll free: 1-866-902-3767

---

**LivePlanBe+ (self directed)**

A free online educational program created with the input of people living with pain. To learn more, check out <https://www.liveplanbe.ca>

---

**Making Sense of Pain (led by a trained facilitator)**

Held over nine to ten weeks, facilitators provide participants with opportunities to learn about pain, the various factors that can make pain worse, and simple strategies that can help participants better manage pain in every day life. All sessions are online via Zoom.

To learn more, call 250-807-8241 (voicemail is available after hours) or email [ipc.ok@ubc.ca](mailto:ipc.ok@ubc.ca) the UBCO Psychology Clinic.

---

- Attend a specialized course(s) – available upon completion of a self-management course outlined above

<b>RJH Pain Program</b>		
<b>Making Peace With Sleep</b>	Cognitive Behaviour Therapy for Pain & Insomnia (CBT-PI) course that addresses the effects of pain on sleep	4-week course 2 hours, once a week
<b>Mindfulness Based CBT for Pain</b>	Learn to enhance awareness of your habitual patterns and skills to intentionally respond rather than to react	4-week course 2 hours, once a week
<b>Gentle Movement</b>	Learn to wind down your nervous system and, create a sense of safety in your body	6-week course 1 hour, once a week
<b>Pain Reprocessing Therapy</b>	Retrain how the brain responds to signals in the body using cognitive, somatic, and exposure-based techniques	8-week course 1.5 hours, once a week
